
School Organisation

A number of structures provide organisation and support for the students and staff at our school.

Few schools offer the breadth of curriculum choice that we have at Howick College. Look in the Department pages for details of subjects.

To help provide the best possible care and guidance for all students in our large school, great importance is placed on the House and vertical Tutor Group system. The college is divided into six Houses, each of which, under the leadership of a Dean, is like a 'school within a school'.

The Board of Trustees page gives a list of current members on the Board. Up-coming events organised to keep parents informed may be found on the Parent Teacher Association page. If you wish to contact a member of the school management team, contact details are available in the School Management page of this section. Similarly contact details are available for members of the staff who support Student Services.
